## EDUCATION

### **The Odin Project - Front-end**

Online learning resource to develop a programming skill set that is attractive to companies.

[The Odin Project Front-end track](#)

### **University of South Alabama, Mobile, AL**

Information Systems track 2010-2012

## TECHNICAL SKILLS

- Experience with **HTML**, **JavaScript**, and **React**.
- Crafted stylish web pages using **HTML** and **CSS**.
- Employed **JavaScript** to increase the functionality of web applications.
- Created a single page application with **React** for a smooth user experience.
- Consumed **API**'s using **Javascript** and **Postman** to provide data.
- Managed local storage using **JSON**.
- Competent with **Linux** command line.
- Perceptive use of **Git** for project source control and prompting automated builds to a pipeline.

## EXPERIENCE

### **Mobile Fire Rescue**, Mobile, AL

*Firefighter*, Oct 2016 – June 2019

Performed first responder duties such as fire suppression, emergency medical care, and public education.

### **Hobby Lobby**, Mobile, AL

*Frame Shop Manager*, Aug 2009 – Sept 2016

Managed department staff, developed sales driven strategies, controlled inventory, and designed framing projects from basic pictures to complex displays.

### **Whigham Pump Repair**, Theodore, AL

*Office Coordinator*, July 2013 - Jan 2014

Processed and distributed invoices, managed and ordered inventory, coordinated with clients and techs on scheduling, work orders, and problem resolution.

### **Chick-fil-a**, Mobile, AL

*Team Leader*, Dec 2004 - Aug 2009

Created daily schedules for employees, managed end of day income counts and records, resolved customer issues, cleaned and performed maintenance on various cookers.

## KEY PROJECTS

### **Weight Tracker**, JavaScript, CSS, HTML

- Record weight, calories, exercise, and protein intake to track your progress over time and visualize the journey displayed graphically on a chart.

### [Portfolio Website](#), JavaScript, CSS, HTML

- A portfolio website I created to show off my web design abilities and to demo some of my projects. It has a responsive design across multiple device sizes and a clean, stylish layout.
